Preparing abstracts for a congress abstract book is very simple, if instructions are followed. The aim of this abstract is to demonstrate how this should be done. All instructions are given on the Abstract Preparation guide on page 6 of the First Announcement, so please read these carefully. The correct font is 11 point Times Roman or Times New Roman, and if you are submitting your abstract by postal mail, the abstract should be typed within the box on the facing page, allowing an inner margin of 2 mm all round, so the type never goes over the box. The paragraph style should be justified, and the line spacing should be at least 11 points. Please write your abstract as one single paragraph. If you are submitting your abstract by e-mail, which is the preferred method, please note and adhere to the page and margin settings on page 6 of the First Announcement. Note that the maximum number of words allowed for your abstract is 250: do not exceed this. Please be sure to give all laser or phototherapy parameters, as detailed in the preparation guide. We look forward to welcoming you to beautiful Nagano prefecture!

**Abstract in one paragraph, justified,
Times New Roman/Times Roman
11 point, spacing at least 11 points**

2 mm inside margin

Type your abstract within the box below, as shown in the sample on the facing page. You can also prepare the abstract in a word processing program, print it out, trim and paste it into the box. The dimensions are 11.8 cm x 11.8 cm (allowing an inside margin of 2 mm). Please do not detach this page from the Registration Form: send all together with your completed bank transfer form

A large, empty rectangular box with a thin black border, intended for pasting an abstract. The box is centered on the page and occupies a significant portion of the lower half of the document.
